

KINETISOL™

Sustainability. Scalability. Performance.

THE FUTURE OF AMORPHOUS DISPERSIONS IS GREEN

Unleash the power of your molecule with KinetiSol™
Technology—the future of amorphous solid dispersions (ASDs).

KinetiSol's greener footprint, simplified scale-up, and accelerated processing time make it the ultimate choice for bioavailability enhancement.

As a fee-for-service CDMO for oral dosage forms and the inventors of KinetiSol Technology, AustinPx is reshaping the ASD landscape. KinetiSol's fusion-based, solvent-free process redefines industry standards, offering unparalleled advantages over other ASD technologies with better Sustainability, Scalability, and Performance.
